

2020 REVIEW - DISABILITY STANDARDS FOR EDUCATION 2005

The Australian Government Department for Education, Skills and Employment are undertaking a review of the Disability Standards for Education.

The Standards help to make sure students with disability can access and participate in education and training on the same basis as students without disability. This supports people with disability to be able to participate fully in society and have more opportunities throughout their life.

You can contribute by making a submission or by completing a questionnaire by 25th September, 2020.

Feedback will enable the Department to determine whether the standards are meeting the needs of students or whether improvements are needed.

For how to do this or if you would like more information visit:
